EMBARKING ON THE ALIEXPO JOURNEY: MORE THAN AN EXPO

As we host our first event since the challenges of the COVID-19 pandemic, the Alibaba E-Commerce Expo is returning with a renewed commitment to supporting businesses in their journey towards recovery and resilience.

We recognise the trial businesses have faced and the resilience they've shown. Now, more than ever, is the time for growth, connection, and forging a path forward.

AliExpo is here to facilitate just that. As we celebrate our return, we reflect on the successes of our previous event in 2019, which served as a milestone in the journey of many businesses. More than 147 exhibitors, a footfall of over 13,000, and online and media impressions exceeding 20 million - these aren't just numbers; they're the markers of opportunities capitalised, of exposure gained, and of networks expanded.

What does this mean for you? It's a testament to the exceptional visibility and reach that your brand can achieve by participating in AliExpo. It's an opportunity to showcase your products to a diversified, international audience and to connect with potential partners who can help your business expand into new territories.
